Since Cops and Criminals Are Both Sending 'Vibes' Into My Home - Let me keep everyone in the world posted on what they say.

1) Sirens sounded near my home when I read this article:

Since Ronald Mac-Donald, Ringmaster of this 3-Ring Circus, is always the promoter ready to 'dominate' the news cycles (first deadline by Friday, second deadline by end of day on Monday - PLUS A TEASER FROM AIR FORCE ONE?! What a fucking asshole!) - perhaps he cares to make his big statement now to the world instead of just to me personally inside of my home?

2) A couple of cars unexpectedly drive quickly past my house while I read this article:

The second one loudly basses as I reach this particular point in the news article:

So, from what I gather today (at 1:45 - 1:47 p.m. in San Antonio, Texas is that Ronald Mac Donald has inside information about Nancy Guthrie, he wants me to believe that Cioni is 'about to be arrested' (don't worry Cioni - he has been threatening my arrest for years now!); and that I am personally being spied on by Homeland Security for my posts (which would actually be good news considering that I am being threatened by his team of criminals on the ground every day of my life now).

Anyway, FUCK CONNIE CHUMP - she is a spying bitch that cannot get over our breakup.

(DONALD TRUMP IS A DANGER TO OUR COMMUNITY!)
